

MESSAGE FROM THE ICAC TO THE COUNCIL & MEMBERS OF ICAEC

While we are relieved that the impact of the Hurricane on Antigua was not as significant, we are deeply saddened by the trail of devastation it has left on Barbuda and other neighbouring islands.

The ICAC empathizes with the people of Barbuda, in particular, who have experienced personal loss and devastation to their island home.

The ICAC affirms its commitment to assist in any way possible the people of Antigua & Barbuda during the recovery and restoration process.

We cannot choose our external circumstances, but we can always choose how to respond to them. - Epictetus
